📍 Tegal, Indonesia

## SUMMARY

Dedicated Software Engineer with years of experience specializing in Frontend development. Passionate about crafting intuitive and engaging user experiences. Proficient in React with Typescript and GraphQL for building responsive and dynamic web applications. Demonstrated ability to deliver high-quality solutions across e-commerce, education, and aquaculture sectors.

Currently expanding expertise into Fullstack development, focusing on Golang, PostgreSQL, and Nginx for robust backend architectures. Combines technical skills with a keen eye for design and a commitment to continuous learning.
